LET IT SNOW!

This is a beautiful Windowpane Water Globe. It's a two sided windowpane snow globe music box. The window lights up with a push of a button and when you wind it up it plays sweet Christmas music. One side shows two very curious children watching Santa and his reindeer flying high in the sky with complete amazement. And the other side is a snowman watching with sheer delight as it snows all

around him.Â This snow globe stands at 10" tall and is 6.5" deep and 8.5" wide.
