

2nd Annual Auction He Intends Victory

Panacare Electronic Blood Pressure Monitor

#35

3.4" Huge LCD Screen
with Extra Large Readings in Backlight
Easily Readable, even in Complete Darkness

Starting Bid **\$15.00**

Donated by **Jim Palmer**

Model BSX516 Arm Type Blood Pressure Monitor

Portable sphygmomanometer for home use with extended size blood pressure cuff, carrying case and USB charging cable

Fully automatic one-button operation using advanced algorithms and built-in smart chip measurement technology ensures accurate readings. The data is displayed visually for 30 seconds, then turns off automatically. Simultaneous audio reading.

3.4 inch backlit LCD display with oversized numbers makes it easy to read blood pressure and pulse rate. Color coded - BP below 140mmHg (normal) is green, 140-180mmHg (mild to moderate hypertension) is light yellow, and above 180mmHg (severe hypertension) is red.

The device can monitor 2 users, storing 198 readings with date and time for each display.
