This electrifying piece, by artist Matthew Laurence Knott titled "JERRY'S GOT THE BLUES," reimagines the beloved Jerry Mouse as a playful Western outlaw bursting with joy and swagger. Rendered in cool, electric blues, the character stands out against a

dynamic, abstract backdrop of icy brushstrokes, energetic drips, and layered textures that evoke motion and mischief.Â

The cowboy hat nods to classic Western tropes, while the bold color palette and graffiti-style elements add a sleek, modern twist. Itâ€™s a vibrant celebration of cartoon rebellion, combining nostalgia with street art bravado and fearless artistic flair.
