### *Custom-Made Fly Rod & Day of Fishing w/Marco*

This rod is presented by Marco Cecala, ([marcoflyrods.com](http://marcoflyrods.com)), one of the West's most respected custom rod builders. The winding check and reel seat are hand turned from a single acrylic billet, a fighting but is added to make bringing in the big ones easier. A hand-turned Agate stripping guide and Snake Brand shooting guides are the best of the best. A custom hand-wrapped 3D Chevron Pattern, wrapped personally by Marco, complements the wraps on the guides and end section. This rod sells for \$950.00. It comes with a sock and a hard case.

PLUS: Marco will take the new owner of the rod out for a day of fishing. He will go over working with the rod casting and then he will head out to the water with you and work with you to catch some fish in a location of your choice.
