Stechcol's specialized high quality ceramic decals are produced with very high temperature firing kiln, patented core technologies of fine bone china, which made us the leading edge world-widely. Our one stop supply service always contented customers satisfaction.

We are highly specialized producer of high-end houseware items frequently purchased by luxury importers & department stores. We set up a plant in Shenzhen on the Chinese mainland since 1989, and continues refining and developing the know-how and technology associated with the finest quality decal prints onto porcelain surfaces.
