Getting an invite to the exclusive Sherwood Country Club golf course is a rare opportunity. This private course is consistently ranked as one of the top courses in California. It was designed by golf legend Jack Nicklaus and has been the host of numerous professional tournaments. You'll be playing on the same grounds that have been trod by Tiger Woods, Greg Norman, Fred Couples, Vijay Singh and so many more.

A recent review of the course says, "Great conditioning. Great use of the terrain in routing the holes. Great caddie staff, many of them have worked there for a couple of decades. Iconic clubhouse with one of the more thrilling finishing holes in golf. Some stars may be members. But the club itself is the real star here when you visit. Love the greens complexes. They just fit the course and the surrounding topography as well. Jump at an invitation to play!"

topograpny so well. jump at an invitation to play.”
