Lines by Lees Series Part 1 - The lines in my series of three depict the beauty of a woman's body against an intentionally textured background.

Leesa Fregin - My involvement in the art world extends back as far as I can remember, from painting as a young girl to helping showcase museum and gallery exhibitions. I will always hold a love for art, whether I will be creating, curating, or simply appreciating it. The lines in my series of three depict the beauty of a woman's body through my lens, otherwise known as, Lines by Lees.
