Cleveland 56 Degree RTX6 56 Degree Mid Wedge

RTX 6 ZipCore

- The new **HydraZip** dynamic blast and laser-milled line system creates roughness to enhance frictionâ€”maximizing spin in any conditions and from anywhere around the green
- Visually, RTX 6 ZipCore Wedge faces are more matte than the last generation, reducing glare at the address and standing out more from the hosel and toe par
- Clevelandâ€™s proprietary, low-density **ZipCore** technology has exponentially evolved for RTX 6 ZipCore, with up to 95% more ZipCore material

- By setting the CG right where you strike the ball, plus increasing MOI by up to 20%, this generation offers players increased spin, distance, consistency, feel, and control on every shot
- **UltiZip** features grooves that are sharper, deeper, and more tightly spacedâ€|
