14X BALANCE BIKE - The Strider 14x helps new & veteran balance bike riders gain confidence on a bigger bike. A balance bike introduces your child to the feeling of being on a bike, building up their confidence by encouraging striding and allowing them to practice bike-handling skills. It features custom grips, a padded seat, and a performance footrest. As your child grows, you can easily and quickly adjust the seat & handlebar heights. The 14x has a seat height range from 15-22" to fit a huge range of inseam lengths (16-23").
