Orange safety lights together with layered colorant and clear Lexan, a recycled plastic city emerges from an earthquake of color with orange seismic zones and expanding colored fault lines.

Art panel dimension: 16 3/8â€ x 22â€ x 1/2â€ thick.Â

Artist Statement

"My art compositions are made of recycled plastics and found objects to present a panel that is in between abstract and figurative, so that what the viewer sees comes from their own imagination (i.e., pareidolia).Â During the process, I can arrange and melt the plastic with some control and intuition, but with

so many variables my result out of the oven is always a surprise. My design gets redesigned. The resin melts itself to sleep and in a dream resolves itself to the image that the future viewer needs to
