*Upcycled from manufacturing scrapped polycarbonate, this panel has repeating but random organic shapes resembling a moonscape or space coral. 500°F heat melted the plastic together and moisture created an unpredictable pattern of bubbles.*

**Art panel dimension: 16 3/8" x 22" x 1/2" thick.**

**Artist Statement:**

"My art compositions are made of recycled plastics and found objects to present a panel that is in between abstract and figurative, so that what the viewer sees comes from their own imagination (i.e., pareidolia). During the process, I can arrange and melt the plastic with some control and intuition, but with

so many variables my result out of the oven is always a surprise. My design gets redesigned. The resin melts itself to sleep and in a dream resolves itself to the image that the futureâ€œ
