Inspired by the essence of Spring, a season that embodies renewal and the promise of new beginnings. Just as flowers bloom and flourish in diverse environments, my mosaic butterfly symbolizes the potential growth and transformation in any circumstances. Each tile, though imperfect and distinct, contributes to a unified mosaic that tells a story of resilience and beauty. This reflects the idea that our individual experiences, sometimes fractured, can create a powerful and cohesive narrative when viewed from a broader perspective. Just as these tiles fit together to form a butterfly, we too can find strength and purpose in our unique journeys, celebrating the beauty in our complexities.Â
