Small - 12 inch butterfly Inspired to work together for a common goal. The clay and metal piece represents the hard and the soft. The color and texture are the light and delicate wings of a butterfly, who has the strength and resilience to migrate long distances, as well as survive the harsh climates and conditions their journey demands. Todd has been creating art for many years using a number of different mediums including paint, fabric and fibers, beads, found objects, tile, mosaics, and most recently metal. Her passion is to accept the challenge of using different techniques and mediums to produce original art pieces with creative beauty. Her art pieces have been displayed in exterior garden spaces, galleries and in private collections. Her inspiration comes from the beauty of
