Large - 40 inch butterfly Inspired by the concept of kindness - as a child growing up in a difficult family setting, she used to go to a friend's house every weekend. Together with her friend they would draw and color. Her favorite was the very large coloring book. There was a page filled with flowers that was always top of the list. Her friend used to save these pages for Kyllan, which was the first time she remembered feeling the kindness of friendship. Kyllan is a Phoenix based muralist, fine artist and educator - "Life is Art."
