

Desert Luminance

#16

Starting Bid **\$750.00**

Donated by **Tonya Shelstad**

Medium - 30 inch butterfly A neon Southwestern butterfly bursting with birds of paradise, roses, and glowing floral patterns. Glow-in-the-dark elements give the piece a luminous desert-night energy, celebrating transformation, growth, and the vibrant spirit of life. As a locally born and raised Arizona artist, Tonya finds painting to be a form of meditation that allows her to be present in the moment and mindful of the world around. You can often times find her hiking and painting outdoors next to a cactus.
