*Handmade greeting cards with beautiful photos are like little pieces of art that convey personal sentiments and celebrations. Each card is a unique blend of craftsmanship and creativity, making them extra special for the recipient and less generic than a regular card.*

*Front Cover: The cover often features a stunning photograph that captures a moment, scene, or theme. This could range from serene landscapes, vibrant flowers, adorable animals, or captivating abstract designs. The photo itself might be framed with decorative borders, or enhanced with hand-drawn elements like glitter, ribbons, or embossing for a touch of elegance.*

*The inside of the card is thoughtfully designed to be blank allowing for a personal handwritten message, or a typed insert. They are so beautiful you'll want to frame them!*
