

3 in 1 Infrared TDP Therapy Lamp

#93

Starting Bid **\$180.00**

Retail Value \$250.00

Donated by **Abe Feder**

TDP infrared therapy lamps (Teding Diancibo Pu) are therapeutic devices featuring a patented mineral plate with 33 trace elements that, when heated, emit 2-50 micron far-infrared waves. They improve microcirculation, accelerate cell regeneration, and relieve pain, muscle stiffness, and inflammation. Benefits and Uses Pain & Inflammation Relief: Used for arthritis, sore muscles, injuries, soft tissue damage, and menstrual cramps. Improved Circulation: Enhances microcirculation, which aids in healing. Mineral Therapy: The mineral plate releases essential elements like calcium, magnesium, and potassium. Deep Penetration: Provides deeper heat penetration than conventional heating pads.
