Introducing the newly designed Weber GENESIS S-315 Propane Gas Grill in Stainless Steel that delivers legendary Weber quality, performance, and durability. The Weber Crafted porcelain enameled cooking grates provide 513 square inches of cooking area, and the warming rack gives you an additional 274 square inches for a total grilling area of 787 square inches. The removable drip pan is now attached to the grease tray for a seamless cleanup, with an included scraper just for good measure. The PureBlu burner system sets this grill apart from the pack - featuring unique, tapered burner tubes that generate consistent pressure and deliver even heat across the grilling surface. Flames are directed above the raised gas ports, while food debris falls below minimizing clodding and ensuring the
