YOUR DNA IS AMAZING.

Get personalized genetic insights and tools that can help make it easier for you to take action on your health. ***150+ personalized reports ***Includes Ancestry +plus Traits Service ***Includes FDA-authorized reports ***FSA/HSA eligibility *** You should be able to access, understand and benefit from the endlessly interesting and diverse things your genetics can tell you. How you choose to explore your DNA is up to you. With that said, we'd like to be the first to say, "Welcome to you" *** BACK BY REAL SCIENCE.

***Science should be fun. It should be easy to understand so everyone (not just the scientifically inclined) can use it and benefit from it in meaningful ways. But science should also be...science. And 23andMe is built on the latest science. *** YOU ARE IN CONTROL OF YOUR DNA AND YOUR DATA. *** We believe you should have a safe place to explore and understand your genes. That's why Privacy and Security are woven into everything we do. We also believe in choice. So you're opted out of sharing unless
